I will prove my case in divorce court and then you will have to act. Its very sick that your a police officer and wont help. He admits I didnt know I wasnt on title that I never even went to the signing . He also admits he never saw my credit. My ID was surrendered on Dec 24 2018 so there is no way I could have ever signed with that ID. i will prove what happened and I will talk to your supervisor for your failure to act.
